

International Symposium « TOURISM AND INHABITANTS: conflicts, cohabitation and cooperation between visitors, local and international tourism stakeholders and destination populations »

14th edition of the AsTRES Pluridisciplinary conference

LARSH – UPHF – Valenciennes (France) – 08 to 11 December 2025

Tourist spending directly or indirectly generates jobs and income for the local population (Dwyer et al., 2004), whether they are natives of the destination or not, permanent or seasonal. Assessing the interrelations between tourism and residents cannot, however, be reduced to an accounting approach but must propose a broader social approach, raise the question of “cultural benefits” (Besculides et al., 2002), question the well-being of resident populations (Dwyer, 2023), and consider their inclusion.

Academic literature has highlighted the contrasting effects of tourism on residents (MacCannell, 2016 ; Delaplace et Simon, 2017 ; Crozat et Alves, 2018; Gravari-Barbas et Jacquot, 2013) and on their perceptions of this activity (Sharpley, 2014; Šegota et al., 2022) or as a tool for economic enhancement (Lévi et al., 2022), particularly in the most visited tourist regions, from the islands of Europe's coastal areas (Dupé et al., 2021) to the great East African Parks (Aragau and Rouget, 2021). This is also the case during major sporting events, with changes in behavior and perceptions regarding the influx of tourists (Hall 1991; Hall 1992; Olds, 1998), which raises the question of the space granted to residents, as during specific

editions of the Summer Olympics where residents were evicted and dwellings demolished (The Asian Coalition for Housing Rights, 1989; Hall and Hodges, 1996; Olds, 1998), or when marginalized populations are excluded to maintain the image of the destination (Zmihi, 2011; Théry, 2016, Vico, 2020).

In addition, public opinion, particularly in the aftermath of the global pandemic, has become concerned about the effects of over-visiting or over-tourism, leading to increased media coverage of the issue (Knafou, 2023). The effects of overcrowding seem to take several forms, from saturation of space (Hristov et al., 2021) to saturation of the housing supply (Brunstein et al., 2023). Citizen participation can be one of the tools for involving residents and regulating conflicts (Harrill, 2004).

However, tourism, a global phenomenon, can be a vector of openness and dynamism in and for territories. While residents play a crucial role as actors in the enhancement and attractiveness of places (Huo et al., 2023), tourism, combined with leisure activities, is a powerful heritage-building machine (Fagnoni, 2013). In regions in crisis, tourism represents one of the levers of redevelopment that can save lives (Fagnoni, 2004; Rieutort, 2007). This heritage, combined with organizing events inviting tourists to the destination, such as a music festival, creates local pride (de Quadros et al., 2024), which residents uphold. Regional players, sometimes international (UNESCO, IUCN), and residents join forces in formal or informal cooperative ventures, often decisive for the area's attractiveness.

Examining the links between tourism and residents requires a fresh approach. This approach should investigate cases of conflict (in the negative sense), cohabitation (in the neutral sense), and cooperation (in the positive sense) through interactions between resident populations, tourists, and local or non-local tourism players (public or private).

This need for a broader approach to studying the links between tourism and residents is the aim of the 14th edition of the AsTRES international symposium. The colloquium will feature papers from various disciplines (planning, geography, management, history, economics, sociology, management science, urban planning, etc.), using multiple complementary methods.

There are several avenues to explore. However, the scientific committee is open to any other proposals. These include

- land and housing issues (eviction, relegation vs. protection, etc.).
- competition between residents and visitors, including in terms of territoriality, but also between local populations and newcomers, including in terms of capturing jobs and through the question of the future of newcomers;
- conflicts structured around environmental issues, from major projects sometimes driven by local populations opposed to environmentalists from all walks of life, to the dynamics imposed by the protection of natural areas,
- complementarities and competition between pre-existing activities and tourism, or within the tourism offer itself, with particular attention paid to the relationship between formal and informal activities.
- regulatory and management policies, proposals and practices, sometimes deployed at state or local level.
- local perceptions of tourism
- tourism's economic effects (costs and benefits), whether direct, indirect or induced, and economic leakage from tourism.
- the role of heritage and local imagination in tourism development.
- inclusive public policies and destination management strategies.
- participatory tourism.
- inequalities in spatial distribution.
- etc.

Istrie (Croatie), Novembre 2024.

Expectations of the submissions: Within the general framework of the symposium, papers may cover different scales, from local to international, and various case studies, from monographs to comparisons, as well as more distanced, epistemological, or theoretical reflections. If necessary, the symposium will feature several videoconference sessions.

Abstract submission: The abstract, of around 800 words (excluding bibliography), may be written in English or French; please indicate the title (in bold type), the name of the author, and of co-authors, if necessary, in capital letters, and their institutional affiliations (with an e-mail address); the text of the abstract should contain an introduction presenting the purpose of the paper, the theoretical framework in which it fits, the methodology, discussion of the results, a few bibliographical references (10 maximum) and 5 keywords. Proposals should be sent in Word AND PDF format to the following address: [colloqueastres2025@uphf.f](mailto:colloqueastres2025@uphf.fr)

Key dates :

- June 20, 2025: Deadline for abstract submission (see above)
- July 13, 2025: Deadline for acceptance/refusal by the scientific committee
- November 9, 2025: Registration deadline

Publication: Following the symposium, upon submission by authors before June 31, 2026, a selection of papers will be submitted to a scientific journal for a special issue (discussions underway).

Supports for the Symposium : Association Tourisme Recherche et Enseignement Supérieur (AsTRES), Université Polytechnique Hauts de France, Pôle transversal du Laboratoire de Recherche Sociétés & Humanités (LARSH) et son département CRISS, Chaire Tourisme et Valorisation du Patrimoine (TVP), Conseil Régional Hauts-de-France (en cours)

Scientific Committee

Thierry Arnal, Ass. Professor in sports, LARSH, Polytechnic University of Hauts de France.

Jacinthe Bessière, Professor in sociology, CERTOP, University of Toulouse 2.

Caroline Blondy, Ass. Professor in geography, LIENSs, University of la Rochelle.

Laurent Botti, Ass. Professor in management, CRESEM, University of Perpignan Via Domitia.

Sylvie Christofle, Ass. Professor in geography, ESPACE, University of Côte d'Azur.

Vincent Dropsy, Professor in economics, GDI-CETOP, University of French Polynesia.

Etienne Faugier, Ass. Professor in history, LER, University of Lyon2.

Christophe Gibout, Professor in urban Planning, TVES, University of Littoral Côte d'Opal.

Christophe Guibert, Professor in sociology, « Espaces et Sociétés », Université d'Angers.

Marc Langenbach, Ass. Professor in geography, PACTE, University of Grenoble Alpes.

Sylvain Petit, Professor in economics, LARSH, Polytechnic University of Hauts de France.

Virginie Picon-Lefebvre, Professor in urban planning, ENSA Paris-Belleville.

Bertrand Réau, Professor in sociology, LISE, CNAM.

Guillaume Richard, Ass. Professor in sports, LARSH, Polytechnic University of Hauts de France.

Nicolas Rouget, Ass. Professor in geography, LARSH, Polytechnic University of Hauts de France.

Guillaume Schmitt, Ass. Professor in geography, LARSH, Polytechnic University of Hauts de France.

Comité d'organisation

Thierry Arnal, Ass. Professor in sports, LARSH, Polytechnic University of Hauts de France.

Maryvonne Boudy, Administrative and financial manager, LARSH, Polytechnic University of Hauts de France.

Nicolas Lambot, PhD student in geography, LARSH, Polytechnic University of Hauts de France.

Marina Lo Giudice, Administrative and financial assistant, LARSH, Polytechnic University of Hauts de France.

Myriam Oumheta, PhD student in economics, LARSH, Polytechnic University of Hauts de France. ; and urban planning, University of Québec at Montréal.

Sylvain Petit, Professor in economics, LARSH, Polytechnic University of Hauts de France.

Guillaume Richard, Ass. Professor in sports, LARSH, Polytechnic University of Hauts de France.

Antoine Rogier, PhD student in economics, LARSH, Polytechnic University of Hauts de France.

Nicolas Rouget, Ass. Professor in geography, LARSH, Polytechnic University of Hauts de France.

Irène Sartoretti, Research ingenior, LARSH, Chaire TVP, Polytechnic University of Hauts de France.

Guillaume Schmitt, Ass. Professor in geography, LARSH, Polytechnic University of Hauts de France.

Provisional program

Monday, December 8, 2025 (2:00 PM - 5:00 PM): Doctoral Workshop

Tuesday, December 9, 2025, 9:30 AM - 10:40 AM: Conference Opening, 1st Keynote Speaker

Tuesday, December 9, 2025, 10:40 AM - 11:00 AM: Coffee Break

Tuesday, December 9, 2025, 11:00 AM - 11:40 AM: Round Table 1 (Cross-Views Between Professionals and Academics)

Tuesday, December 9, 2025, 11:40 AM - 12:40 PM: Plenary Session

Tuesday, December 9, 2025, 12:40 PM - 2:20 PM: Lunch

Tuesday, December 9, 2025, 2:20 PM - 3:20 PM: Parallel Sessions

Tuesday, December 9, 2025, 3:20 PM - 3:40 PM: Coffee Break

Tuesday, December 9, 2025, 3:40 PM - 5:40 PM: 2 Parallel Sessions

Tuesday, December 9, 2025, Evening: Cocktail Reception.

Wednesday, December 10, 2025, 8:20 AM - 9:00 AM: AsTRES AGM

Wednesday, December 10, 2025, 9:00 AM - 10:00 AM: 2nd Keynote Speaker (Dominic Lapointe, UQAM)

Wednesday, December 10, 2025, 10:00 AM - 10:20 AM: Coffee Break

Wednesday, December 10, 2025, 10:20 AM - 12:20 PM: 2 Parallel Sessions

Wednesday, December 10, 2025, 12:20 PM - 2:00 PM: Lunch

Wednesday, December 10, 2025, 2:00 PM - 3:00 PM: Parallel Session
Wednesday, December 10, 2025, 3:00 PM - 3:20 PM: Coffee Break
Wednesday, December 10, 2025, 3:20 PM - 4:20 PM: Parallel Session
Wednesday, December 10, 2025, 5:00 PM - 7:00 PM: Social Excursion
Wednesday, December 10, 2025, from 8:00 PM: Gala Dinner, Award Ceremony for Best Thesis

Registration fees (excl. VAT):

Standard fees, non-AsTRES members: 300 euros
Standards fees, AsTRES members: 210 euros
PhD students fees, non-AsTRES members: 110 euros
PhD students fees, AsTRES members: 90 euros
Distance learning registration: 200 euros
